

## Humanities Film Project

Human Geography is everywhere, let's prove it and have a little fun at the same time!

**Objective:** You will analyze a film as a geographer and prove that APHG is everywhere! You will look for Human Geography throughout the film and take notes by sorting issues, topics, circumstances, events, etc. into your APHG units of study then create a Google Slides presentation to share in class. Apply what you have learned all year!

### **Directions:**

1. Choose a partner to work with. My partner is: \_\_\_\_\_.

2. You will draw for one of the following three film options:

*The Wizard of Oz*

*Freedom Writers*

*Rabbit-Proof Fence*

3. Watch your film and take notes in the chart provided. It's okay if you need to use your own format and paper so long as you address all the units listed on the chart in an organized fashion. You and your partner will need to complete & submit your own notes. Outside sources & research may be needed as well. **Submit a Works Cited page on the day of your presentation.**

4. Create a Google Slides presentation by following the format below:

Slide 1- Intro Slide

Slide 2- Unit 1 connections

Slide 3- Unit 1 cont.

Slide 4- Unit 2 Connections

Slide 5- Unit 2 cont.

Slide 6- Unit 3 Connections

Slide 7- Unit 3 cont.

Slide 8- Unit 4 Connections

Slide 9- Unit 4 cont.

Slide 10- Unit 5 Connections

Slide 11- Unit 5 cont.

Slide 12- Unit 6 Connections

Slide 13- Unit 6 cont.

Slide 14- Unit 7 Connections

Slide 15- Unit 7 cont.

Slide 16- Summary

Slide 17 - Lasting Image

**\*EVERY slide must include an image. The image for Slide 2 must be a map.**

5. Present your Google Slides to the class.

<b>Unit 1: Geography's Nature &amp; Perspectives</b>	<b>Unit 2: Population &amp; Migration</b>
<b>Unit 3: Cultural Patterns &amp; Processes</b>	<b>Unit 4: Political Organization of Space</b>
<b>Unit 5: Agriculture, Food Production, &amp; Rural Land Use</b>	<b>Unit 6: Industrialization &amp; Economic Development</b>
<b>Unit 7: Cities &amp; Urban Land Use</b>
